

Danco Facilities Guide

Danco Metal Surfacing Arcadia, CA **44 LaPorte Street**

Arcadia, CA 91006 626 445-3303 Fax: 626 445-3135

The Arcadia facility has both aluminum and titanium anodizing available. In conjunction with the anodizing facility there is our Dimad division that provides polishing, graining, blasting and de-burring to achieve your desired mechanical finish. Our Deep Image and Full Color Graphics departments are located in this facility. Arcadia also has access to laser marking, screen printing, and engraving.

Danco Metal Surfacing Ontario, CA **1750 Monticello Court**

Ontario, CA 91761 909 923-0562 Fax: 909 923-5325

The Ontario facility provides the Inland Empire business community with Type II and Type III aluminum anodizing, chem film, and passivation of stainless steels. Dimad is co-located to provide finishing operations as described above. This facility is Nadcap approved and offers hexavalent chrome free chemical film.

Danco Metal Surfacing Santa Ana, CA **401 W. Rowland**

Santa Ana, CA 92707 714 557-2411 Fax: 714 557-0408

The Santa Ana facility provides hundreds of machine shops with rapid turnaround sulfuric and hard coat aluminum anodizing services. As with the other plants, finishing and marking services are available. This facility also has liquid penetrant and magnetic particle NDT inspection available to further enhance our goal of providing one stop shopping.

Danco Anodizing Warsaw, IN **2450 Deelyn Drive**

Warsaw, IN 46580 574 269-5900 Fax: 574 269-5966

This facility provides both titanium and aluminum anodizing to manufacturers in the Midwest and Eastern US with a focus on medical instruments and devices. Both nitric and citric passivation and electro-polishing of stainless steel are also offered. The addition of Low Friction Chrome Coating for medical instruments, Non-Destructive Testing (NDT), Laser Marking and a complete metal finishing capability makes this facility a true "one stop shop".

- For the Warsaw facility contact Dean Zentz or email zentz@danco.net.
- For California facilities contact Bill Grossett at (626) 445-3303, bill.g@danco.net.

Gemtech Powder Coating Huntington Beach, CA 92647 **17892 Metzler Lane**

Huntington Beach, CA 92647 714 848-2517 Fax: 714 847-5589

This facility complements the finishing capabilities of the California based plants. A powder coated finish is environmentally clean, superior in chemical, chip, impact and abrasion resistance and benefits from a great variety of colors and textures. Special purpose finishes have also been developed for the medical, food and signage industries. For more information email info@gemtechinc.com or visit the site at www.gemtechpowder.com.
